Benefits

Cost-Efficient

Maximise your business efficiency with a cost-effective hosting facility that provides flexible and scalable commercial options

Highly Secure

Our facilities are protected with redundant power supplies, multi-layered security, climate-controlled environments and robust Service Level Agreements (SLAs)

Widely Interconnected

Our facilities are strategically located, enabling you to rapidly connect to our wide ecosystem of network and partners

Highly Customisable Options

We offer flexible hosting options that support scalability as your business grows

24/7 Monitoring & Management

We ensure maximum uptime with around the clock maintenance and monitoring

Reduced Complexity

Secure your connectivity anywhere in the world and grow your global presence with Epsilon as your single provider of choice

“Epsilon Global Hub Singapore provides an excellent choice for power and connectivity to the world’s fastest-growing region. We enable our customers and partners to take advantage of a thriving ecosystem by interconnecting new and existing networks, clouds, internet exchanges and business partners.”

Lee Prentice-Hall

Global Infrastructure Manager
Epsilon

Why Choose Us?

Comprehensive Cloud Infrastructure

We are global experts in network infrastructure and cloud interconnect

Consistent Global Hubs

Our facilities in Singapore, London, New York and South Korea offer the same sets of services with a familiar business model that makes it easy to scale up

Simplified Operations

We reduce the number of service provider relationships by contracting with a single provider for your global infrastructure needs

Customer Service Excellence

We offer the same Epsilon customer service excellence at each of our facilities around the world

Rapid Global Delivery

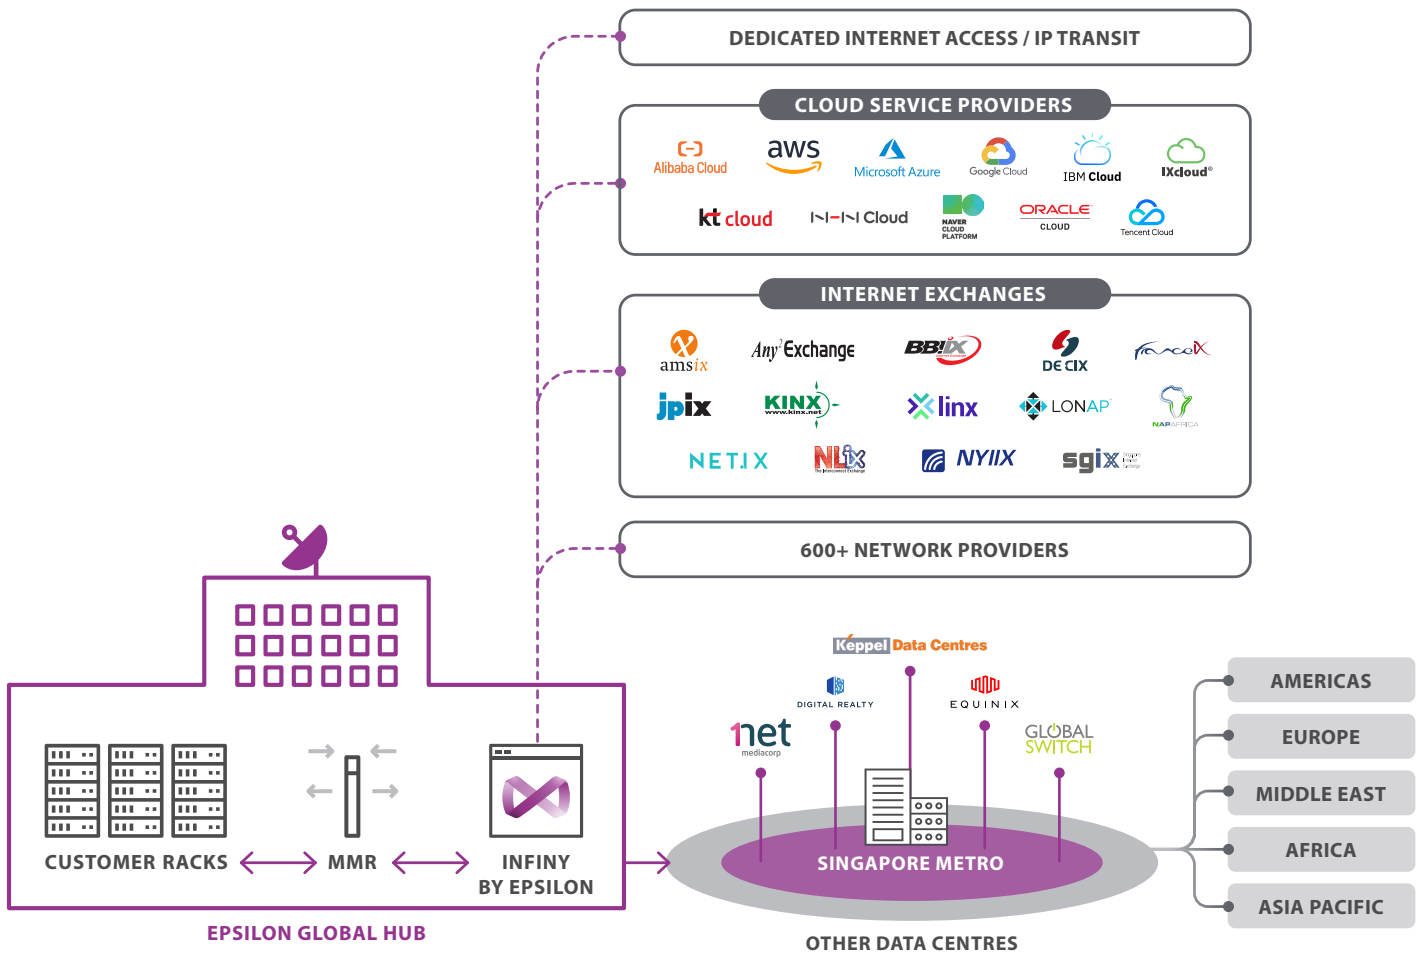

Our interconnection solutions can be combined with Colocation to enable you to rapidly roll out new services globally with maximum speed and efficiency

Bespoke Solutions

Our Colocation solutions go beyond just our facilities. We can build and deploy solutions in data centres across the globe

Market Place for Ordering

You can easily bundle other network services along with Colocation to maximise your return on investment
