

# New York Colocation

**60 Hudson Street**

Access to hundreds of service providers with high capacity and low-latency interconnectivity

## Overview

Epsilon Global Hub New York is a colocation facility that enables physical connections to hundreds of network operators within the building. We provide access to all floors to give you an interconnected presence throughout the whole building and globally from a single location.

Our global network fabric enables instant access to interconnected data centres, networks, clouds, internet exchanges and business partners around the world with on-demand network orchestration capabilities.

Epsilon colocation services help you to safeguard your mission-critical data with leading security and operational reliability. We offer full suite options and meet-me rooms as well as a portfolio of security, support and disaster management services for assurance. Our efficient and seamless model enables you to grow your business and expand your reach to new markets.

## Features

- Connectivity to Data Centres Globally
- Managed Meet-Me Room (MMR)
- 24x7x365 Protection Delivered by Expert Engineers
- A Global Interconnect Fabric Including Service Providers, CSPs and IXs
- Rack-space & Cooling
- 24x7x365 Monitoring
- Remote Hand Services and Disaster Management Solutions

## Epsilon Facts

600+ Carriers, Cloud Providers and Internet Exchanges are part of our Interconnect Fabric

High Availability with 99.999% Uptime

24x7x365 Dedicated Global Support

## Benefits

### Cost-Efficient

You can drive business efficiency with a cost effective hosting facility with scalable interconnect solutions

### Highly Secure

Our facilities are protected with redundant power supplies, multi-layered security, climate-controlled environments and robust Service Level Agreements (SLAs)

### Interconnection Hubs

Our facilities have been strategically located in interconnection enabling you to rapidly connect to new and existing mesh of networks and partners

### Highly Customisable Options

We offer flexible hosting options that support scalability as your business grows

### 24/7 Monitoring & Management

We ensure maximum uptime with around the clock maintenance and monitoring

### Reduced Complexity

Through a single relationship with Epsilon, you can grow your presence and connect to the world's communications hubs

---

“Epsilon offers a one-stop shop for global connectivity and Colocation services. We enable our partners to deliver services globally and expand their presence, as and when they need it. We remove the barriers to growth with highly secure and highly connected Colocation solutions. It is an infrastructure that matches today's demands.”

### Lee Prentice-Hall

Global Infrastructure Manager  
Epsilon

## Why Choose Us?

### Comprehensive Cloud Infrastructure

We are global experts in network infrastructure and cloud interconnect

### Consistent Global Hubs

Our facilities in Singapore, London and New York offer the same sets of services with a familiar business model that makes it easy to scale up

### Simplified Operations

We reduce the number of service provider relationships by contracting with a single provider for your global infrastructure needs

### Customer Service Excellence

We offer the same Epsilon customer service excellence at each of our facilities around the world

### Rapid Global Delivery

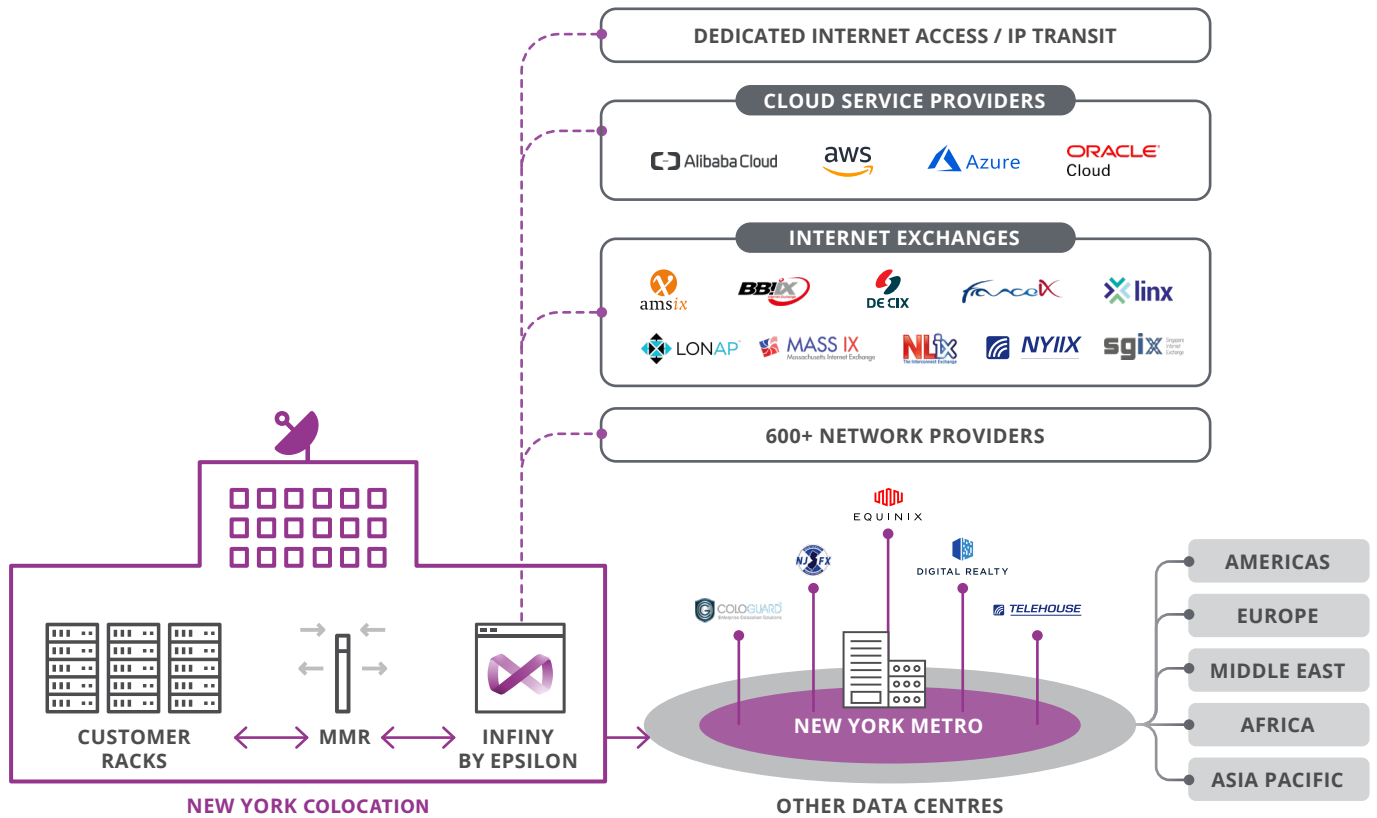

Our interconnection solutions can be combined with Colocation to enable you to rapidly roll out new services globally with maximum speed and efficiency

### Bespoke Solutions

Our Colocation solutions go beyond just our facilities. We can build and deploy solutions in data centres across the globe

### Market Place for Ordering

You can easily bundle other network services along with Colocation services to maximise your return on investment

## TECHNICAL SPECIFICATIONS

<b>General</b>	<ul style="list-style-type: none"> <li>• Site Design Spec: Tier 2 By Design</li> <li>• Total White space: 8000 Sq Ft</li> <li>• Number of racks within the White space: 100</li> <li>• Rack Dimensions: Mix of 600mm x 1000mm x 47U, 600mm x 1200mm x 47U, 1/4 &amp; 1/2 Racks Available</li> <li>• Max power per footprint: 2.5KW</li> </ul>
<b>Flooring</b>	<ul style="list-style-type: none"> <li>• Loading: 6 Kn Per Sq Ft</li> <li>• Type: Concrete Slab Covered with Vinyl tile</li> <li>• Cavity: N/A</li> </ul>
<b>Power</b>	<ul style="list-style-type: none"> <li>• Incoming power: 450KW</li> <li>• Rack Voltage: 110V, 208V</li> </ul>
<b>Generator</b>	<ul style="list-style-type: none"> <li>• Design: 400Kw</li> <li>• Fuel capacity: 380 L Day Tank</li> <li>• Run time: 6 Hours</li> <li>• Refuel: 6 Hours</li> </ul>
<b>UPS</b>	<ul style="list-style-type: none"> <li>• Design: N+1</li> <li>• Number of units: 1x 72kW   1x 18kW</li> <li>• Batteries: Deka AGM</li> <li>• Autonomy: 15mins</li> </ul>

<b>Rack Power Delivery</b>	<ul style="list-style-type: none"> <li>• Design: Dual Diverse AC power distribution with 20 &amp; 30 amp</li> <li>• Socket type @ Rack: Nema L6 30, Nema L6 20</li> <li>• Smart Metering (PDU): Yes</li> </ul>
<b>Enviomental Temperature Controls</b>	<ul style="list-style-type: none"> <li>• Design: N</li> <li>• Hot / Cold Asile working: No</li> <li>• Hot / Cold Asile Containment: Mix</li> <li>• Air Delivery - Temperature to Rack: 23 degrees</li> <li>• Air Delivery - To rack: Overhead</li> </ul>
<b>Fire Detection &amp; Suppression</b>	<ul style="list-style-type: none"> <li>• Suppression Type: Pre-Action water sprinkler, dry pipe</li> <li>• Detection: Yes</li> <li>• Suppression: No</li> </ul>
<b>Site security &amp; Access</b>	<ul style="list-style-type: none"> <li>• Building security guard: Yes</li> <li>• Facility security guard: No</li> <li>• Online Access Booking: No</li> <li>• Access control system: Yes</li> <li>• CCTV: No</li> </ul>
